

Install Kits

The TSP-K4A Probe Installation Kit is used to install TSP-LL2 Liquid Level Probes in underground tank applications. It is designed to allow the probe to be suspended in a 4" riser pipe. This method of installation guarantees that the probe can provide accurate level information and that the tank is sealed in accordance with regulatory requirements. It also provides excellent protection for the probe. The TSP-K4A Installation Kit makes it easy to install TSP-LL2 Liquid Level Probes properly and safely. The TSP-K4A Installation Kit actually suspends the level probe from the top of the riser. The kit is designed so that the probe and cable do not twist during installation and so the cable is sealed and strain relieved. It also allows easy access to the probe for inspection if required. The TSP-K4A Installation Kit allows you to install level probes in almost any underground tank. It works equally well in fiberglass and steel tanks and can be adjusted to accommodate tanks buried at almost any depth.

TSP-K4A

PART NUMBER	DESCRIPTION
TSP-K2A	Mag Probe Install Kit for 2" (50.8 mm) riser pipes
TSP-K4A	Mag Probe Install Kit for 4" (101.6 mm) riser pipes
TSP-K4B	Mag Probe Install Kit for 4" (101.6 mm) riser pipes with BSP Threads
TSP-K4AS	Mag Probe Install Kit for 4" (101.6 mm) riser pipes (constructed of #316 stainless steel)
TSP-LPGK	LPG Probe Installation Kit

Probe Cables

PART NUMBER	DESCRIPTION
600-0042	Belden #87761, for probe cable runs up to 400 foot (121.9 M)
600-0055	Belden #89182, for probe cable runs 400 to 1500 foot (457.2 M)
600-0080	Quick disconnect probe cable

Note:

- Order cable in minimum increments of 500 feet (152.4 M).
- Use only these cables with: TSP-LL2 and TSP-LL2I probes.

Probe Installation Accessories

PART NUMBER	DESCRIPTION
TSP-UVPK	Ultraviolet Protection Kit - Protects probe electronics when installed in AST application
TSP-DB1	One Direct Burial Splice Connector Kit
STP-DB10	Pack of 10 Direct Burial Connector Kits
TSP-DBTOOL	Epoxy dispensing tool
TSP-KW30	Pack of 30 3M Splice Connectors

Note:

- Use the TSP-DB1/TSP-DB10 for Direct Burial Cable applications or when Weatherproof Junction Boxes are not used.
- The DBTOOL is required to dispense the epoxy.
- Each Direct Burial Splice Connector Kit includes a receptacle, three splice connectors and epoxy for the dispensing tool.
