### OPW 634LPC Low Profile Fill Cap (634LPC-0400)

The OPW 634LPC low profile top seal fill cap is designed for tight installations where the clearance between the top of the fill adaptor and the underside of the spill container cover is limited. The rugged iron lever provides a positive cam-action that seats the cap firmly in the adaptor groove for a water and vapor tight seal. When engaged, the lockable cap adds only 1/2" to the final height of the adaptor. The 634LPC can be used with the 4" OPW 633T, 633TE, 633TC, and 61SA series top seal fill adaptors.

## Materials

---

Cap: cast zinc alloy (powder coated grey)

Lever: ductile iron

Gasket: Buna-N
